

After verification of measurements, we guarantee the fit!

Thank you for choosing Vanson Leathers!

# Custom Racing Suit Guide

## Quality...from Professionals...for Professionals!

Vanson Leathers understands professional racers. They depend on premium quality protective garments, fast knowledgeable service and styles and graphics to showcase the racer and his or her sponsors.

Vanson Custom Suits are made from top-grain U.S. cowhide approximately **3 1/2 oz.** per square foot and **1.4 -1.7 mm.** We are constantly developing new features and experimenting with new materials. This ensures that we can offer the best product and service to professional riders. Vanson offers a complete "menu" of options and lettering styles to choose from, allowing you to design the suit you want.

## How to use this form

Select the **Style** of suit based on the standard features which meet your racing needs. For each Style, there is a list of available **Options**. These Options are available at an additional cost to the base price of the suit. Select the **Style** then the **Options**. Next, you can **Draw Your Own Design** or choose from the many standard **Graphic** designs we have provided for you. Color selections can be made from Vanson's wide selection of drum-dyed colors.

Sample leather color swatches are available upon request. Remember, you can change colors at any seam line for **no extra charge!** To add a personalized touch to your custom suit use the **Lettering and Logos** section.

**Note: Foils and Special Effects leather cost 15% more.** Be sure to show the placement of any custom lettering in the spaces provided. Then, using the special **Vanson Measuring Device**, complete the **Take Your Measurements** section. Be sure to follow the directions carefully and fill out all the measurements in this section. In order to verify your measurements, it is **required** that you include your **Height, Weight, and Age.**

Finally, turn to page **41** of the form and complete your order by filling out the **Shipping Information** and adding the cost from each section to determine the **Total Cost** of your suit.

## The Proof is in the Patents

Buying a Vanson suit is purchasing a unique piece of leather working history. Over the years, as we have developed our own, unique way of producing a better quality garment we've come up with entirely new concepts for our riders. As these innovations have been discovered and perfected, they have been patented.

Currently **Vanson holds over 10 unique patents.** These cover everything from the way we set the zippers in our garments for our venting system to our Floating Armor System. Carefully designed for your comfort and safety when working with our superior materials, we always seek to innovate without sacrificing the longevity of our suits.

# TOP 11 REASONS TO BUY A VANSON

## **#1 Pride of ownership**

When you get a handmade Vanson custom suit you are joining a very exclusive worldwide club. These suits are heirloom quality, and given basic proper care will give decades of service.

## **#2 Express yourself through the creation of a beautiful and unique suit**

Any graphic - you (we can help you) design it, we will make it. Or look at our design pages for inspiration. Note: subject to design/construction limitations of the basic garment we are making for you.

## **#3 Value**

Get Back Up and Get Going – our suits are NOT crash and replace. Mike Martire has over 60 crashes on his suit; Brian “Crash” Kent over 40. Korry Hogan came off at 248 mph. Just before the finish line and slid 600 feet. Chris Hand got blown off his drag bike at 228 mph. Dale Quarterly lost it at full speed on the Daytona High Banks when his Ducati transmission locked up – 165 mph creating a 400 foot slide. Eric Wood at Homestead came off at 160 mph, and ran back to the pits to relaunch on his back-up bike.

## **#4 Strength + Protection**

Race after race, year after year. Some of our oldest suits are still racing. Made from the strongest leathers, and the innovative and unique patented design features – such as the F.A.S. ( Floating Armor System), Double Front Zipper racing suits, Powerstretch Aramid textile panels, RAM Air Sleeve vents, Air Curtain ventilation systems – Vanson continuously works to produce the best at the front of the pack. Take a look at Eric Guilbranson’s Crash101 video (on web homepage) on why and how the Vanson suits protect.

## **#5 Made in USA**

Handmade with pride in our workshop in Fall River, Mass, USA. The Vanson team has over 44 years experience of making dreams come true. We make and finish our own leather. We make our own Aramid textile – which we call Powerstretch.

## **#6 Ownership registry**

All repairs, patterns and alterations are archived to enable us to repair and or reproduce each individual garment. We have tracked lost and stolen Vansons for their owners and the police.

## **#7 Reconditioning service**

We will clean and bathe Vanson leathers using the same ph balanced oils and waxes used in the original tanning and finishing of the leathers.

## **#8 Aftercare**

We will alter, repair and maintain Vanson leathers whatever the age and condition so long as the finished product is deemed “safe” by us.

## **#9 Guaranteed fit**

Once measurements have been approved by us, we have the information we need to be able to guarantee the fit for a custom motorcycle jacket, pants or suit. No worries – see our measurement video and pages – or call us, we can help.

## **#10 Any size**

We will make to fit

## **#11 Asphalt Insurance**

Take a spill and you’ve got asphalt insurance you’re covered!  
Who else does that for their customer?

# TESTIMONIALS

## Eric Wood

"Vanson leathers are without question the finest racing suits available. Their premium leather and uncompromising manufacturing processes result in a product that you can really trust. After nearly 30 years of riding and racing in Vanson suits my skin has never touched the asphalt. There is no other brand that will protect you, time after time, like a Vanson."

## Pat Mooney

"I've worn several different manufactures' suits over my racing career and have unfortunately crashed in all of them. Vanson suits have held up crash after crash. If you plan on pushing to the limit on the racetrack the inevitable is going to happen, the best thing you can do for yourself is make sure you're wearing the best protection available."

## Chris Hand

"I have been wearing Vanson Leathers exclusively for almost 20 years. I have also experienced unparalleled service and support from Vanson over the years. Vanson is my only choice in leather apparel, whether I'm racing the 240 mph Top Fuel bike, street riding, or just sporting my Vanson Hailwood jacket at bike events."

## Larry McBride

"All of my suits showcase some of the highest quality workmanship I have ever seen. I have been wearing Vanson Leathers for more than 20 years. As a racer, you need products you can trust. I have always trusted Vanson. My suit held up great, even after the fiery explosion."

# Mark 3 Standard Features

- A.** Spandex beaded collar for no bulk and no restrictions.
- B.** Double-zipper front for ease of entry and smooth aerodynamic fit.
- C.** Side alignment of zippers allows for tighter tuck on bike and better overall fit.
- D.** Laminated front panel improves strength, ventilation and dramatically improves perspiration wicking (available only on double-zippered suits).
- E.** All brass hardware.
- F.** Removable lining via small gauge nylon zippers at elbows, knees, crotch and along main body that allows for partial removal of the main body lining for washing and suit maintenance (elbow-to-wrist and knee-to-ankle lining stitched in and are non-removable).
- G.** Seamless body-hugging Powerstretch™ from wrist to armpit includes cut-out at inner elbow for less bulk. Powerstretch™ at crotch for better comfort and reduced bulk in riding position and behind the legs follows the contour of the calf for comfort.
- H.** Extended and rotated sleeve and ankle zippers allow for easier entry and exit.
- I.** Moisture resistant flexible hip armor.
- J.** State of the art knee design moves seams away from the knee cap (this eliminates pressure on the knee and increases your movement, comfort, control and improves armor placement for safety).
- K.** New ergonomic knee expanders are radically shaped longer to eliminate pulling when knee is on asphalt.
- L.** Velcro® area with GP style sliders.
- M.** Raw edge finish at main zippers, wrist zippers and ankle zippers for less bulk.
- N.** Patented shoulders with forward rotated sleeves for even greater mobility and access.
- O.** New longer vented shoulder expanders for extended movement.
- P.** Articulated multi-scale spine pad and patented F.A.S. Full Floating Armor System with leather encapsulated hard plastic armor.
- Q.** Properf ventilated leather from shoulders to bottom of the knee expanders for cooling and comfort.
- R.** Properf Ventilated leather panels on the back of calf from the knee to ankle for better cooling and reduced bulk.
- S.** Properf back expander for side-to-side motion, comfort and additional ventilation.

**VE93** We have taken a minimalist approach to our V093 and created the single-zippered VE93. This suit offers the same incredible amounts of protection and intelligent design as the V093 keeps you running back to your bike to get back your podium spot.

**F.A.S. GP Armor**  
**All Brass Hardware**  
**Expander Panels**  
**Washable Lining**  
**Flexible Knee Design**  
**Low Bulk Wrist And Ankle Finish**

**VL93** Our awesome technology is also fine tuned for women. We accommodate the structure of the female body to offer comfort and protection in one of the most demanding of all motor sports.

# VO93

Custom starting from \$1755

We incorporated over 44 years of technology and expertise to create the best custom road racing suit on the market. You'll find yourself getting up time after time thanking this suit for saving your body just as many have done before you.

- 1. GP SHOULDER ARMOR** If you've ever high sided and landed with your shoulder breaking your fall for you, this is the armor you know you want.
- 2. GP ELBOW ARMOR** This gives you protection from the elbow all the way down your ulna. Ultimate arm protection!
- 3. KNEE EXPANDER** We place these (tough as nails) leather expanders in the section of your knee that begs for extra material to ensure comfort and ease when getting in and out of your tuck.
- 4. DOUBLE FRONT ZIPPERS** If you want to be able to tuck with out a bunch of suit digging into your stomach this is for you.
- 5. FOREARM ZIPPER** After a race you're going to want to escape your suit and arm pump makes that even more difficult than it initially was. Our forearm zip goes above the muscle to make disrobing a breeze.
- 6. GP KNEE ARMOR** After cracking your knee on a peg, handle bar, or other hard surface (asphalt) you want protection that has multiple layers of impact dispersion. Our GP knee armor does just that.
- 7. EXTRA LEATHER LAYER** We've seen enough suits to know where to place an extra layer of leather to limit any chances of burning through our hides to yours (on knee, shoulder, elbow, and seat).
- 8. SHOULDER EXPANDER** When you are in a full tuck the last thing you want is to have the back of your suit pulling your back and your neck. Our shoulder expanders keep this kind of behavior to a minimum.
- 9. KEVLAR** Your calves do a lot of work during a race and because of that they sweat and expand. We place kevlar in those spots to expand with, ventilate, and protect the calf.
- 10. GP SPINE PROTECTOR (enclosed in a pouch sewn to lining)** This is going to allow you to spill and keep on racing. Unfortunately there are a lot of friends out there who suffer back injuries from weak back protection. We did our best to ensure that does not happen to any of our riders.
- 11. LOWER BACK EXPANDER** When you're in a tuck we want your back to breathe while being protected, that's why we make 3-3.5 oz. perforated leather expanders.

## Our Two Piece Version

**V932** If you love our VO and VE but you don't like having to put a one piece on and off, our V932 is the suit for you. With all of the technology and expertise as our one piece suits you will be consistently impressed and amazed at how our suit grows with you. Get ventilation and freedom of movement with our combination of perforated leather and kevlar in this amazing suit.

Custom starting from \$1850  
**V932**

# Premium Options

**Eric Wood** loves wearing our V-series suit and has been wearing them without fail for decades. He also loves our premium options!

**SPONSOR SPACE!**

**Eric Wood**  
wearing our VE93

## **Ankle Scoops (AS)**

We create a cut-away in the front of the pant leg at the cuff to reduce bulk inside your boot

## **Elbow Expanders (ELEX)**

Elbow expanders enhance bending at elbow and helps reduce pulling in the shoulders

## **Kevlar Cuffs (KC)**

Powerstretch cuffs at the wrist reduce bulk under your gloves

# Select Options MARK3 (VO93-VE93-V932) Road Racing Suit

Select the options to be added to the basic suit as needed from those listed. Lettering and custom graphics will be specified in later pages.

# Custom Suit Measuring Guide

## Super Moto Suits

After verification of measurements, we guarantee the fit!

### Standard Features

**1. PROperf™ Ventilation Panels** The front panels of the suits are perforated for flow through ventilation. This feature combined with a perspiration wicking mesh lining will help to keep you comfortable even on the hottest day.

**2. Powerstretch™ Panels - POWERSTRETCH is a VANSON™ Powerstretch™** panels allow a snug fit with excellent ease of movement. Powerstretch™ has an extremely high tensile strength. This combined with a stretch material results in comfort and strength where you need it most.

**3. Double-Zipper Front** (Patented) for ease of entry and a smooth aerodynamic fit. Side alignment of zippers allows for tighter tuck on bike, and eliminates “bunching” for a better fit.

**4. Zip-Free Washable Lining** No more stinky leathers! Now you can unzip the perspiration wicking mesh lining at the arms, legs and along the torso for partial removal to wash and dry (lining remains attached at ankle and cuffs).

**5. CE Approved** Vantech armor-shoulders, elbow/forearms, knee, hips and backpad (enclosed in a pouch sewn to lining), with high flex to allow a greater range of motion while retaining a high level of safety

**6. Combination** of leather and textiles for increased safety while providing a lightweight fatigue reducing motard garment

**7. Extra Large Stretch** panels in shoulders, back, and knees for maximum range of motion.

### MEN'S SM22 TWO PIECE SUPER MOTO SUIT \$1,495

Same as the one piece Super Moto suit but with the convenience of a full circumference zipper to lock the jacket to the pants. Only available as a single front zippered jacket.

### MEN'S SMO2 ONE PIECE Moto SUIT \$1,395

The new SMO2 featuring CE approved armor and a double zipper entry system has set a new benchmark for excellence in super moto racing suits. Standard features include POWERSTRETCH - a VANSON™, specifically woven aramid and high tensile nylon stretch fabric.

# Custom Suit Measuring Guide

## Classic Road Racing Suits

After verification of measurements, we guarantee the fit!

These are true race suits designed to fit when in the tuck or racing position. They may not give a comfortable fit if used for other applications. The construction is functional and may appear unfinished to those not familiar with race suits. These are "full-on" race suits.

### RR1

Custom  
starting from  
**\$1350**

### RR12

Custom  
starting from  
**\$1450**

General Back Area  
For Both Suits

#### STANDARD FEATURES

This classic suit has been developed over the years, made from top-grain, 3 to 3 1/2 oz. (1.5 to 1.7 mm) U.S. leather. Made from first class materials, the Traditional is an excellent basic suit.

1. Extra leather sewn inside at the knees.
2. Leg zippers at rear of calf.
3. Velcro® tab across top of front zipper.
4. Nylon mesh lining for comfort and ventilation.
5. Beaded collar.

6. Extra leather sewn inside at the shoulder/collarbone.
7. Extra leather sewn inside at elbow/forearm.
8. Leather expansion section at back for comfort and freedom of movement.
9. Wrists and ankles have "raw edge" finish for comfort with less bulk.
10. Heavy duty front zipper with wind flap and license pocket.
11. Zipper on inseam of sleeves.

#### STANDARD FEATURES

1. F.A.S. Armor™ Includes: Elbow/Forearm, Shoulder, Knees, Back pad (enclosed in a pouch sewn to lining), Closed cell moisture resistant foam hip pads \*Smaller size suits can not accept HARD (GP) armor. CE approved armor will be substituted.

2. POWERSTRETCH™ keyhole shaped sections from back of knee to ankle for com-fort in the tuck position.

3. POWERSTRETCH™ Keyhole shaped sections at elbow/forearm for ventilation and comfort in the racing position.

4. Velcro® area for the fitting of knee sliders (pucks are not standard).

The MK 2 is made from the same top quality materials as the Traditional and includes most popular options.

## RR2 Traditional Two Piece

Custom  
starting from  
**\$1395**

This is our traditional two piece suit, a retro cut and fit with the best leather manufacturing techniques. Waistband with Velcro® fastening at front conceals waist zipper. We've put extra leather in all of abrasion prone areas. We've also cut the back of the jacket low to keep out the wind. Elastic around top of pants. Snap collar with fold-back snap tab, and snaps at front for fit. The two piece version of the high quality Traditional suit gives great versatility. Extra leather sewn inside at the shoulder/ collarbone and knees. Leg zippers at rear of calf. Raw edge finish at ankles for less bulk.

## RR22 Mark 2 Two Piece

Custom  
starting from  
**\$1495**

This suit gives you the ease of a two piece, the looks of a classic suit, and the protection of a fully armored suit. What's better than that? That's right, nothing. Same standard features as Traditional 2 piece suit plus the listed additional features.

**POWERSTRETCH™** keyhole shaped sections from back of knee to ankle for comfort in the tuck position.

Includes:  
Elbow/Forearm - Shoulder - Knees - Back pad (enclosed in a pouch sewn to lining), - Closed cell foam hip pads

\*Smaller size suits can not accept HARD (GP) armor. CE approved armor will be substituted.

HUMW	Camel back reservoir holds about 8 fl. oz. of water. Water line is led inside to side of neck where velcro hangers support it. Order Hump separately.	20.00 XTRA
TOTAL OPTIONS \$		<input type="text"/>

## What is a Street + Track suit?

The Street and Track combo is made for the individual who finds themselves wanting track-level protection with the convenience of pockets, reflective areas, vents and other creature comforts to improve your riding experiences. This is for the long rides on your high speed touring bike that you maintain with the same attention to detail and functionality that we put into these combos.

This Street and Track combo allows you to choose the things we make for our sport rider family and put them together for a two piece street and track combination that suits your specific needs with our proven sport rider technology. From a ride in the alps to a track day with your buddies, this is the combo that'll get it all done.

# Street and Track Suits

After verification of measurements, we guarantee the fit!

## COBRA

Vanson has the answer for the high performance rider who wants the versatility and comfort of a street riding jacket and pant combo, but needs the additional protection of a two-piece suit with a full circumference waist zipper.

## COBRA STAR

Available only as a custom-fit "made to order" set, we combine any of a number of different jacket styles from the sport rider, technical and super motard line of jackets, with the matching pant style by altering the waistband, adding a back expander, and the full circumference zipper.

## LIGHTNING

The pants and jacket zip together to form a secure riding garment appropriate for track days, riding schools and serious aggressive street riding. The two garments can also be worn independently.

## SATELLITE / HURRICANE

## SPORT RIDER / PROPERF SPORT RIDER

## MANX- not armorable

## STALLION / PROPERF STALLION

Both the jacket and pant offer the armor features standard to the off-the-rack versions available. They can also be fitted with our F.A.S. GP race armor designed for the track.

Complete ventilation is available by selecting the Properf versions of the jacket or pants. Degrees of ventilation are offered on the Cobra, Cobra Star, Lightning and Technical Mark III jacket styles.

Due to construction limitations, we are unable to make the Track-Street Combo with the adjustable waistbands that come standard on the off-the-rack version.

Vanson strongly recommends the use of a purpose built racing suit for all forms of Motorcycle racing and does not recommend the Track-Street Combo for competition racing.

## TECHNICAL MARK III

## SUPERMOTO

## TECHNICAL PANTS

## SPORT RIDER PANT / PROPERF SPORT RIDER

All styles are also available in a women's fit.

\* Properf versions have perforated leather for the main body panels, replacing the solid leather panels. Collar and waistband are always solid leather.

# Select Options Street/Track Suit

Select the options to be added to the basic suit as needed from those listed. Lettering and custom graphics will be specified in later pages.

# Garage Suit VNV6

We have found the happy medium of form and function. Our garage suit combines the classic utility of garage coveralls with the adaptable aspects such as velcro areas for armor, avenger vents on the front of the torso, air ram vents on the sleeves, along with the long lasting durability of our waxed cotton. This is perfect for putting a few miles on after tuning your carbs or layering up and riding cross country.

# PROFIT CarbonX Driving Suit

## FD01 - FS01

Double-zip front or single-zip, driver/crew suit with a single layer of protection.

## FD05/ FS05

Double-zip front driver/crew suit SFI level 5

Single-zip driver/crew suit with SFI level 5 protection

## FJ01-05 Jacket

The same geometry applied to a single jacket

## FP01-05 Pant

The same geometry applied to a single pant

## FSOK-FDOK Child

Single-zip or double-zip front made for kids!

**WE COMBINE**

DuPont™  
**Nomex®**

**AND**

**CARBON X**

# Unique features that are standard on the Vanson PROFIT driving suit.

## Expander Gussets

Expander gussets on the back of the shoulders allows the suit to move with the driver without riding up on the drivers shoulders and causing discomfort.

## Serial Numbered

Serial numbered for identification of ownership and cataloging of patterns and alterations. (Located under Belt)

## Double Front Zip

Ease of entry. Side alignment of zippers allows for less bulk when sitting in the car which makes for easier harness closure and better fit.

## Easy Access Pockets

Who doesn't love a couple of well-placed usable pockets?

## Reinforced Epaulets

Daytona style reinforced epaulets standard for quick removal from vehicle.

## Quilted

All multi layer suits are quilted for prevention of fabric shifting and fire stoppage.

## Expander Panel

Expander panel in the lower back area helps to prevent the suit from pulling down on the driver's shoulders.

## Precurved Arms

The precurved arms prevent underarm pressure which can put your hand to sleep during extended time in the drivers seat.

#	Description of option	Price \$
<b>EPAULET / BELTS / SUSPENDER OPTIONS</b>		
40A	Suspender buttons - set to waistband of pants - four sets of two buttons each to attach suspenders #40S	15.00 SET

5 Three inch stripe	\$35.00	\$60.00	\$40.00	\$50.00	\$40.00

**STRIPES TOTAL \$**

**STRIPE MATRIX**

Choose stripe pattern you want and location. Example: A4=2 inch (#4) going down arms (A). Cost \$30.00 Non standard widths are priced as next widest standard stripe. Stripes over 3" wide are an "inlay" see previous page for costing.

**Note:** 3M® Reflective tape is offered in any stripe or pattern design as long as it can be done. This is a difficult material to work with.

**Note:** Foils and Special Effects leather cost 15% more.

**INLAYS & INLAY DESIGNS**

Inlays are stripes over 3 inches in width. Inlay Designs are those color separations that require seam lines in addition to the basic seams (shown on the diagram). Symmetrical Inlay (side to side symmetry) are priced as \$100.00 top and \$100.00 bottom. Asymmetrical Inlays (no symmetry side to side) are \$150.00 top and \$150.00 bottom.

# Take Your Measurements

## GENERAL INSTRUCTIONS:

- **Never measure yourself.** Get someone else to help you.
- For taking measurements, wear jeans that fit you comfortably but snugly and a t-shirt. Empty contents of pockets. Pull up pants for snug fit. Remove belt.
- On measurements involving the waist or "VMD Waist" use **Vanson Measuring Device** (see below). **Another tape will also be required** for measuring.
- Pull tape measure snug **DO NOT allow extra** in your measurements.
- Vanson race suits are purposely designed for comfort and ease of movement in the race position. They are designed to be worn over minimum clothing. They may not feel comfortable while standing or walking. **They are not designed for touring or pedestrian use**

## HOW TO USE THE VANSON MEASURING DEVICE

- This device is designed to assist you in obtaining consistent measurements. This is of utmost importance in order for us to make your suit fit as it should. Use on measurements marked 6.
- Secure the **elastic belt** part of the device around waist at **navel**. Make sure **belt is parallel to ground**.
- The elastic should be a snug fit so it does not move up and down easily when you rotate the **tape** or slide the **tape slider buckle**.
- You can now snap the tape to the tape slider buckle.
- Have someone run the tape over your body to the point you need to **measure to**, then write down the measurement.
- Rotate tape for other measurements that are **from the same point**. For other **measure from points**, slide tape slider buckle.

**Make sure elastic belt does not move accidentally during measuring process.**

**If you have questions,  
call Vanson's help line  
(508) 678-2000**

**Vanson Measuring Device**

## Make your own VMD

- 1 String/Elastic that will stay in place around waist at navel

- 1 Measuring tape

Make sure the band or string around the waist is parallel to the ground (periodically check throughout measurements). Make sure to take measurements along the string or band from the same points each time.

# SUIT MEASUREMENTS

Contact Information

Date \_\_\_\_ / \_\_\_\_ / \_\_\_\_

Name \_\_\_\_\_ Email \_\_\_\_\_

MALE  FEMALE Height \_\_\_\_\_ Weight \_\_\_\_\_ Age \_\_\_\_\_

1. Are you a bodybuilder? **NO**  **YES**

2. Are there any existing physical conditions that should be allowed for in the fit of this suit? If Yes, describe.

\_\_\_\_\_

3. Are you measuring over any braces/armor? If Yes, describe.

\_\_\_\_\_

4. What brand/model spine pad do you wear?

\_\_\_\_\_

5. What type of belly do you have?  
Please circle the one that best fits you.

**HANDLEBAR POSITION - CHECK ONE**  
 Drag Bars     Clip-Ons     Low Rise Bars

**RACE TUCK**     **EXTREME TUCK**     **LAYDOWN**

## ATTENTION!

**WARNING:** If your measurement checks are off, your suit will not fit correctly. These checks will take much less time than waiting for adjustments to be made. Help us eliminate unnecessary fit issues by providing accurate measurements.

**IMPORTANT:** Please send us **THREE** clear full length photos with the measuring device around your waist. One full frontal, one side profile, one rear with arms at side.

**NOTE:** Measure your body, then if you are wearing gear (back brace, knee brace, etc. then measure while wearing your brace(s). Write in any open space with a note describing your gear and anything that will help us provide you with the best fit.

**MUST BE WEARING A PAIR OF GOOD FITTING JEANS AND A T-SHIRT!**

**IF YOU HAVE QUESTIONS CALL 508-678-2000**

**MAKE SURE ELASTIC BELT (VMD) DOES NOT MOVE**

### TERMS AND CONDITIONS

**All custom orders must be signed and be accompanied by a 50% deposit. This deposit is non-refundable once work has commenced on your order.**

A rush service is available for a 20% surcharge on the total price of the garment. This is intended to cover costs related to producing your garment within 15 working days. However, this is not a guaranteed service and is dependent on our existing backlog when your order is received. In the event we are unable to produce your suit within the specified time, the rush charge will be refunded. Accurate measurements are your responsibility.

**Alterations due to inaccurate measurements are chargeable to you.**

If the balance on the garment is not pre-paid, the garment will ship C.O.D. (cash or certified check) for the balance.

**Custom orders are not refundable, if any changes or alterations are required to the garment, it must be returned within 30 days from the date shipped.**

All designs submitted or made as a result of this order become the exclusive property of Vanson Leathers Inc. and may not be used for any purpose without the written permission of Vanson Leathers, Inc. Vanson Leathers, Inc. reserves the right to change and modify product specifications.

**Note:** Florescent and metallic finishes on leather are decorative and are not warrantied by Vanson. All metallic and florescent finishes are light sensitive and may fade in sunlight. All non drum dyed leather, including metallic and florescent finishes, cannot be refinished by Vanson.
