

After verification of measurements, we guarantee the fit!

Thank you for choosing Vanson Leathers!

Custom Driving Suit Guide

Quality...from Professionals...for Professionals!

Vanson Leathers understands professional racers. They depend on premium quality protective garments, fast knowledgeable service and styles and graphics to showcase the racer and his or her sponsors.

Vanson Custom Suits are made from top-grain U.S. cowhide approximately **3 1/2 oz.** per square foot and **1.4 -1.7 mm.** We are constantly developing new features and experimenting with new materials. This ensures that we can offer the best product and service to professional riders. Vanson offers a complete "menu" of options and lettering styles to choose from, allowing you to design the suit you want.

How to use this form

Select the **Style** of suit based on the standard features which meet your racing needs. For each Style, there is a list of available **Options**. These Options are available at an additional cost to the base price of the suit. Select the **Style** then the **Options**. Next, you can **Draw Your Own Design** or choose from the many standard **Graphic** designs we have provided for you. Color selections can be made from Vanson's wide selection of drum-dyed colors.

Sample leather color swatches are available upon request. Remember, you can change colors at any seam line for **no extra charge!** To add a personalized touch to your custom suit use the **Lettering and Logos** section.

Note: Foils and Special Effects leather cost 15% more. Be sure to show the placement of any custom lettering in the spaces provided. Then, using the special **Vanson Measuring Device**, complete the **Take Your Measurements** section. Be sure to follow the directions carefully and fill out all the measurements in this section. In order to verify your measurements, it is **required** that you include your **Height, Weight, and Age.**

Finally, turn to page **41** of the form and complete your order by filling out the **Shipping Information** and adding the cost from each section to determine the **Total Cost** of your suit.

The Proof is in the Patents

Buying a Vanson suit is purchasing a unique piece of leather working history. Over the years, as we have developed our own, unique way of producing a better quality garment we've come up with entirely new concepts for our riders. As these innovations have been discovered and perfected, they have been patented.

Currently **Vanson holds over 10 unique patents.** These cover everything from the way we set the zippers in our garments for our venting system to our Floating Armor System. Carefully designed for your comfort and safety when working with our superior materials, we always seek to innovate without sacrificing the longevity of our suits.

TOP 11 REASONS TO BUY A VANSON

#1 Pride of ownership

When you get a handmade Vanson custom suit you are joining a very exclusive worldwide club. These suits are heirloom quality, and given basic proper care will give decades of service.

#2 Express yourself through the creation of a beautiful and unique suit

Any graphic - you (we can help you) design it, we will make it. Or look at our design pages for inspiration. Note: subject to design/construction limitations of the basic garment we are making for you.

#3 Value

Get Back Up and Get Going – our suits are NOT crash and replace. Mike Martire has over 60 crashes on his suit; Brian “Crash” Kent over 40. Korry Hogan came off at 248 mph. Just before the finish line and slid 600 feet. Chris Hand got blown off his drag bike at 228 mph. Dale Quarterly lost it at full speed on the Daytona High Banks when his Ducati transmission locked up – 165 mph creating a 400 foot slide. Eric Wood at Homestead came off at 160 mph, and ran back to the pits to relaunch on his back-up bike.

#4 Strength + Protection

Race after race, year after year. Some of our oldest suits are still racing. Made from the strongest leathers, and the innovative and unique patented design features – such as the F.A.S. (Floating Armor System), Double Front Zipper racing suits, Powerstretch Aramid textile panels, RAM Air Sleeve vents, Air Curtain ventilation systems – Vanson continuously works to produce the best at the front of the pack. Take a look at Eric Guilbranson’s Crash101 video (on web homepage) on why and how the Vanson suits protect.

#5 Made in USA

Handmade with pride in our workshop in Fall River, Mass, USA. The Vanson team has over 44 years experience of making dreams come true. We make and finish our own leather. We make our own Aramid textile – which we call Powerstretch.

#6 Ownership registry

All repairs, patterns and alterations are archived to enable us to repair and or reproduce each individual garment. We have tracked lost and stolen Vansons for their owners and the police.

#7 Reconditioning service

We will clean and bathe Vanson leathers using the same ph balanced oils and waxes used in the original tanning and finishing of the leathers.

#8 Aftercare

We will alter, repair and maintain Vanson leathers whatever the age and condition so long as the finished product is deemed “safe” by us.

#9 Guaranteed fit

Once measurements have been approved by us, we have the information we need to be able to guarantee the fit for a custom motorcycle jacket, pants or suit. No worries – see our measurement video and pages – or call us, we can help.

#10 Any size

We will make to fit

#11 Asphalt Insurance

Take a spill and you’ve got asphalt insurance you’re covered!
Who else does that for their customer?

TESTIMONIALS

Eric Wood

"Vanson leathers are without question the finest racing suits available. Their premium leather and uncompromising manufacturing processes result in a product that you can really trust. After nearly 30 years of riding and racing in Vanson suits my skin has never touched the asphalt. There is no other brand that will protect you, time after time, like a Vanson."

Pat Mooney

"I've worn several different manufactures' suits over my racing career and have unfortunately crashed in all of them. Vanson suits have held up crash after crash. If you plan on pushing to the limit on the racetrack the inevitable is going to happen, the best thing you can do for yourself is make sure you're wearing the best protection available."

Chris Hand

"I have been wearing Vanson Leathers exclusively for almost 20 years. I have also experienced unparalleled service and support from Vanson over the years. Vanson is my only choice in leather apparel, whether I'm racing the 240 mph Top Fuel bike, street riding, or just sporting my Vanson Hailwood jacket at bike events."

Larry McBride

"All of my suits showcase some of the highest quality workmanship I have ever seen. I have been wearing Vanson Leathers for more than 20 years. As a racer, you need products you can trust. I have always trusted Vanson. My suit held up great, even after the fiery explosion."

Nomex®

AND

Unique features that are standard on the Vanson PROFIT driving suit.

Expander Gussets

Expander gussets on the back of the shoulders allows the suit to move with the driver without riding up on the drivers shoulders and causing discomfort.

Serial Numbered

Serial numbered for identification of ownership and cataloging of patterns and alterations. (Located under Belt)

Double Front Zip

Ease of entry. Side alignment of zip-pers allows for less bulk when sitting in the car which makes for easier harness closure and better fit.

Easy Access Pockets

Who doesn't love a couple of well-placed usable pockets?

Reinforced Epaulets

Daytona style reinforced epaulets standard for quick removal from vehicle.

Quilted

All multi layer suits are quilted for prevention of fabric shifting and fire stoppage.

Expander Panel

Expander panel in the lower back area helps to prevent the suit from pulling down on the driver's shoulders.

Precurved Arms

The precurved arms prevent underarm pressure which can put your hand to sleep during extended time in the drivers seat.

STRIPES TOTAL \$

STRIPE MATRIX

Choose stripe pattern you want and location. Example: A4=2 inch (#4) going down arms (A). Cost \$30.00 Non standard widths are priced as next widest standard stripe. Stripes over 3" wide are an "inlay" see previous page for costing.

Note: 3M® Reflective tape is offered in any stripe or pattern design as long as it can be done. This is a difficult material to work with.

Note: Foils and Special Effects leather cost 15% more.

INLAYS & INLAY DESIGNS

Inlays are stripes over 3 inches in width. Inlay Designs are those color separations that require seam lines in addition to the basic seams (shown on the diagram). Symmetrical Inlay (side to side symmetry) are priced as \$100.00 top and \$100.00 bottom. Asymmetrical Inlays (no symmetry side to side) are \$150.00 top and \$150.00 bottom.

Take Your Measurements

GENERAL INSTRUCTIONS:

- **Never measure yourself.** Get someone else to help you.
- For taking measurements, wear jeans that fit you comfortably but snugly and a t-shirt. Empty contents of pockets. Pull up pants for snug fit. Remove belt.
- On measurements involving the waist or "**VMD Waist**" use **Vanson Measuring Device** (see below). **Another tape will also be required** for measuring.
- Pull tape measure snug **DO NOT allow extra** in your measurements.
- Vanson race suits are purposely designed for comfort and ease of movement in the race position. They are designed to be worn over minimum clothing. They may not feel comfortable while standing or walking. **They are not designed for touring or pedestrian use**

HOW TO USE THE VANSON MEASURING DEVICE

- This device is designed to assist you in obtaining consistent measurements. This is of utmost importance in order for us to make your suit fit as it should. Use on measurements marked 6.
- Secure the **elastic belt** part of the device around waist at **navel**. Make sure **belt is parallel to ground**.
- The elastic should be a snug fit so it does not move up and down easily when you rotate the **tape** or slide the **tape slider buckle**.
- You can now snap the tape to the tape slider buckle.
- Have someone run the tape over your body to the point you need to **measure to**, then write down the measurement.
- Rotate tape for other measurements that are **from the same point**. For other **measure from points**, slide tape slider buckle.

Make sure elastic belt does not move accidentally during measuring process.

**If you have questions,
call Vanson's help line
(508) 678-2000**

Tape slider buckle can be slid to another point to measure from **while maintaining same height**.

Make your own VMD

- 1 String/Elastic that will stay in place around waist at navel

- 1 Measuring tape

Make sure the band or string around the waist is parallel to the ground (periodically check throughout measurements). Make sure to take measurements along the string or band from the same points each time.

TERMS AND CONDITIONS

All custom orders must be signed and be accompanied by a 50% deposit. This deposit is non-refundable once work has commenced on your order.

A rush service is available for a 20% surcharge on the total price of the garment. This is intended to cover costs related to producing your garment within 15 working days. However, this is not a guaranteed service and is dependent on our existing backlog when your order is received. In the event we are unable to produce your suit within the specified time, the rush charge will be refunded. Accurate measurements are your responsibility.

Alterations due to inaccurate measurements are chargeable to you.

If the balance on the garment is not pre-paid, the garment will ship C.O.D. (cash or certified check) for the balance.

Custom orders are not refundable, if any changes or alterations are required to the garment, it must be returned within 30 days from the date shipped.

All designs submitted or made as a result of this order become the exclusive property of Vanson Leathers Inc. and may not be used for any purpose without the written permission of Vanson Leathers, Inc. Vanson Leathers, Inc. reserves the right to change and modify product specifications.

Note: Florescent and metallic finishes on leather are decorative and are not warrantied by Vanson. All metallic and florescent finishes are light sensitive and may fade in sunlight. All non drum dyed leather, including metallic and florescent finishes, cannot be refinished by Vanson.
